Fund Sub-Adviser

Barrow, Hanley, Mewhinney & Strauss, Inc. (BHMS) is a wholly owned subsidiary of Old Mutual Asset Managers, LLC, a subsidiary of Old Mutual plc, an international financial services group located in London, England.

Objective

The Fund's objective is to generate a high level of current income consistent with prudent investment risk. To achieve this goal, the Fund normally invests in a diversified portfolio of debt securities. These include corporate bonds, convertible securities and preferred securities. The investment manager will generally purchase securities for the Fund that are not investment grade, meaning securities with a rating of "BB" or lower as rated by Standard & Poor's or a comparable rating by another nationally recognized rating agency.

Strategy ¹⁰

In managing its portfolio, the Fund concentrates on sector analysis, industry allocation and securities selection deciding which types of bonds and industries to emphasize at a given time, and then which individual bonds to buy. The Fund attempts to anticipate shifts in the business cycle in determining types of bonds and industry sectors to target. In choosing individual securities, after considering the moral screens, the Fund seeks out securities that appear to be undervalued within the emphasized industry sector.

Moral Screening

The Timothy Plan is committed to maintaining portfolios that only contain securities that are **not** actively contributing to the moral decline of our society. If you believe that one of our holdings is violating any of the following screens, please contact us:

- ABORTION
- PORNOGRAPHY
- ANTI-FAMILY ENTERTAINMENT
- ALTERNATIVE LIFESTYLES
- ALCOHOL, TOBACCO & GAMBLING

To the best of our knowledge, the Timothy Plan is the only Fund in existence that takes a **ZERO TOLERANCE** stand in moral screening!

 9 The ratings of the bonds in the Fund are those provided by Moody's. To offer uniformity and continuity of analysis, only Moody's is used to demonstrate the relative ratings. The ratings represent Moody's opinions as to the quality of the securities that they rate. Portfolio composition will change over time. Ratings are relative and subjective and are not absolute standards of quality.
 10 Bond funds are not FDIC insured and are subject to yield and market risk as the interest rates fluctuate, as compared to Certificates of Deposits which offer a fixed rate of return, and are FDIC insured. The degree of risk for a security may not be reflected in its credit rating. Bonds in the High Yield Bond Fund that are rated at BBB or lower by Standard & Poor's, or that are unrated, are subject to greater market risk and credit risk, or loss of principal and interest, than higher rated securities.
