Fund Sub-Advisor

Chartwell Investment Partners ("Chartwell") is owned by its employees. Chartwell utilizes a team of investment professionals, who are responsible for the day-to-day recommendations regarding the investment of the portfolio.

Objective

The Fund's objective is long-term growth of capital. Current income is not a significant investment consideration. The fund seeks to achieve its objective by focusing on stocks of companies believed to have above-average potential for growth in revenue, earnings, cash flow or other similar criteria.

Strategy

The Fund strives to provide above-average capital appreciation by investing in high-quality growth companies that have sustainable long-term business advantages. Investment risk is managed by focusing on companies that demonstrate financial strength, profitability and liquidity. Although diversification does not assure a profit or protect against a loss in a declining market, by investing across multiple industries and sectors, appropriate levels of diversification are attempted to be maintained, which in turn should reduce volatility and risk. After considering the moral screens, the Fund utilizes fundamental research to identify leading companies with strong competitive advantages (market share, intellectual property, brand, etc.) and proven management in industries with significant growth prospects. Emphasis is also placed on earnings quality: consistency and sustainability of earnings. The Fund employs a fully invested approach and does not attempt to time the market.

Moral Screening

Timothy Plan is committed to maintaining biblically responsible portfolios. If you believe that one of our holdings is violating pro-life/pro-family values, please contact us.

² Past performance is no guarantee of future results. Share price, yield and investment returns fluctuate such that an investor's shares may be worth more or less than their original cost upon redemption.

³ This chart is for illustrative purposes only and does not represent past or future performance, or portfolio composition. This hypothetical \$10,000 investment in the Fund's Class A shares since inception assumes the reinvestment of dividends and capital gains. Performance for the Fund's other share class(es) would be different.
