

3 Reasons *to Invest with Timothy Plan*

Almost anyone can devote even a little money to investing, and the sooner you start investing, the more your investment has the potential to grow. Most investors realize this, but often the more difficult question becomes, “where should you invest?”

TIMOTHY PLAN

Investing with Biblical Principles

01

Your Values

Timothy Plan exists to promote biblically responsible investing. Our foundational principle of investing is that God owns everything. This is why our funds take a pro-life, pro-family approach to investing—not only to benefit the investor but the broader culture. We are firmly committed to running a mutual fund company with the integrity, excellence, and wisdom that brings honor and glory to our Lord Jesus.

Investing with a Clear Conscience

Our commitment is that we will not invest a single penny into any company that violates our screens. Timothy Plan's mission is to enable you to invest with a clear conscience.

02

Advantages

01 Professionally Managed

The portfolio managers we employ have developed advanced skills through experience or specialized education that helps them in making investment predictions and decisions.

02 Convenience

Most investors don't have the time or expertise to manage their investments. Our portfolio managers dedicate their professional lives to research and analysis of fund holdings on a daily basis.

03 Affordability and Liquidity

Investors can start with a relatively small amount of money and have the option to buy or redeem shares on any business day.

04 Well Regulated and Transparent

Compared to some other investments, mutual funds are highly regulated and offer transparency in their business practices.

05 Flexibility

Mutual funds offer a variety of investment options (e.g., fixed income, balanced, growth, sector, and global). Some of these options provide an emphasis on generating regular income for an investor, while other options look for long-term growth.

06 Minimum Paperwork

Gains/losses, dividends, and income earnings are calculated and provided to the investor on a quarterly basis.

07 Diversified Investment Strategies

Our thirteen funds offer the opportunity for a diversified investment strategy across five asset classes.

03

Stewardship

What will it profit a man if he gains the whole world and forfeits his soul? (Matt. 16:26)

The way we invest not only affects our financial goals, but it affects the broader culture. When we choose to invest in any security, we become owners in a company and help support (financially) the mission and vision of that company. Timothy Plan allows you to invest in companies whose products and practices bring real blessing to the broader culture. We believe this is a better kind of investing.

TIMOTHY PLAN

Investing in a mutual fund may result in a loss of principal. Carefully consider the investment objectives, risks, charges, and expenses before investing. A prospectus is available from the Fund or your financial professional that contains this and other more complete, important information. Please read it carefully before investing or sending money.
