The Russell Midcap Growth Index is a widely recognized, unmanaged index of mid-capitalization growth companies in the U.S. The Index assumes reinvestment of all dividends and distributions and does not reflect any asset-based charges for investment management or other expenses. It is not possible to invest directly in an index.

The illustration is based on a hypothetical $10,000 investment in A Class shares. All results shown assume reinvestment of dividends and capital gains. The maximum sales load on Class A shares is 5.5%; the maximum CDSC on Class C shares is 1%; Class I shares are no load shares which are available exclusively through registered investment advisors or for institutional accounts.

Fund Sub-Advisor

Chartwell Investment Partners LLC ("Chartwell") is a boutique investment management firm, an independent affiliate and subsidiary of Raymond James Investment Management, the asset management subsidiary of Raymond James, Inc. (NYSE: RJF).

Objective

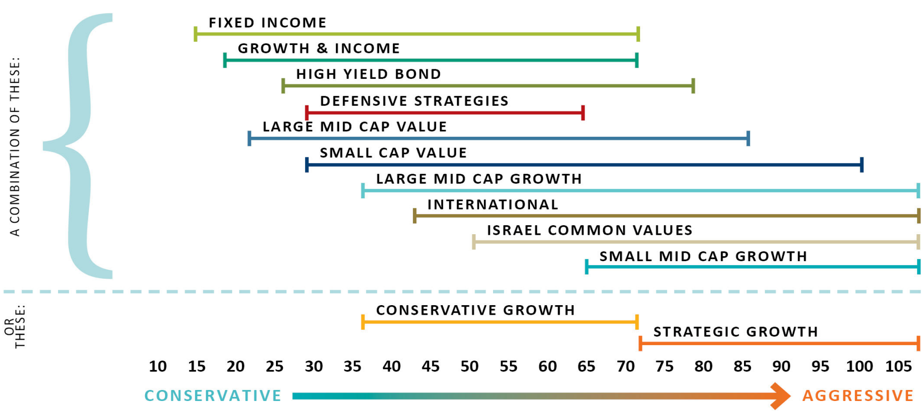
The investment objective of this Fund is to provide you with long-term growth of capital.

Strategy

- The Fund seeks to achieve its investment strategy by normally investing at least 80% of the Fund's total assets in stocks of small and mid-cap companies. The Fund may invest its assets in securities of U.S. companies and foreign companies, directly or indirectly through American Depository Receipts ("ADRs") or other types of depositary receipts. The Fund may also invest in equity real estate investment trusts ("REITs").
- The Fund invests its assets in the securities of a limited number of companies, which the Fund's Investment Manager believes show a high probability for superior growth.

Fund Risk

This fund invests in small and mid sized companies, which may result in greater risks. Investing in growth stocks may result in performance that is less than the market as a whole, and growth stocks may experience greater volatility than other stocks. The fund may experience higher portfolio turnover than other funds, which could result in higher transaction costs and higher taxes.



PLEASE SEE THE FUND PROSPECTUS FOR A COMPLETE EXPLANATION OF THE RISKS INVOLVED WITH EACH FUND. Risk chart is for illustrative purposes only.
