**PAST PERFORMANCE DOES NOT GUARANTEE FUTURE RESULTS.** Investment return and principal value of an investment will fluctuate; therefore, an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. Visit timothyplan.com for the most recent month-end performance.

The Russell 1000 Growth Index is a widely recognized, unmanaged index of 1000 large-capitalization companies in the U.S. The index assumes reinvestment of all dividends and distributions and does not reflect any asset-based charges for investment management or other expenses. It is not possible to invest directly in an index.

The illustration is based on a hypothetical $10,000 investment in A Class shares. All results shown assume reinvestment of dividends and capital gains. The maximum sales load on Class A shares is 5.5%; the maximum CDSC on Class C shares is 1%; Class I shares are no load shares which are available exclusively through registered investment advisors or for institutional accounts.
